Demonstrating Embossed Detail on Classic Square Die

EEN PROJECT UIT ONZE LIVESHOW - ONE DAY SPECIAL - 11 SEPTEMBER 2025

HET EINDRESULTAAT

OVER DIT PROJECT

Create an elegant embossed square card panel using a classic nesting square die with Celtic-style detail. This demonstration shows how to achieve beautiful textured impressions on white cardstock, creating decorative frames with intricate embossed patterns. The technique produces striking dimensional effects that work beautifully for card making and paper crafting projects.

STAP VOOR STAP

STAP 1 VAN 6

Position the classic square die on white card stock on your cutting plate. Ensure the die is placed centrally on the card stock ready for die cutting.

BEKIJK DEZE STAP - 38:00

STAP 2 VAN 6

Place your paper on the embossing side of the die and run through your die cutting machine to create the embossed detail.

BEKIJK DEZE STAP - 38:30

STAP 3 VAN 6

Remove the cut piece from the die and observe the embossed Celtic detail on both the inside and outside edges of the square frame.

BEKIJK DEZE STAP - 39:00

STAP 4 VAN 6

Apply ink to the embossed detail using a brush to highlight the raised texture on your die-cut piece. Work gently to ensure the ink catches only the raised areas of the embossed pattern.

BEKIJK DEZE STAP - 40:00

STAP 5 VAN 6

Observe how the ink settles into the embossed lines on the card, making the detail more visible. The embossed pattern creates depth and dimension as the ink highlights the raised areas.

BEKIJK DEZE STAP - 40:30

STAP 6 VAN 6

For a deeper embossed effect, use a shim by placing extra card underneath the die when running it through your die-cutting machine. This creates more pronounced embossed detail on your square card layers.

BEKIJK DEZE STAP - 41:00

TIPS UIT DE SHOW

- Using a shim under the die creates a deeper, more impactful emboss on the card.
- The embossed detail will show more clearly when you add ink to highlight it.
