STAP 5 VAN 10

Glue the pocket elements inside the album pages at varying heights to create layered storage. Position the floral-decorated pockets at different levels to allow for multiple photos or mementos to be stored. Ensure the pockets are securely adhered before adding contents.

TIPS UIT DE SHOW

- Pop out all pieces from one kit into five separate piles to make five different albums.
- There are no score lines pre-printed on the pieces, so you can score them as you wish or leave them unscored if you want to use the pieces for cards instead.
- You can use the pre-cut pieces as templates for your own patterned cardstock if you want to create matching designs.
