STAP 1 VAN 9

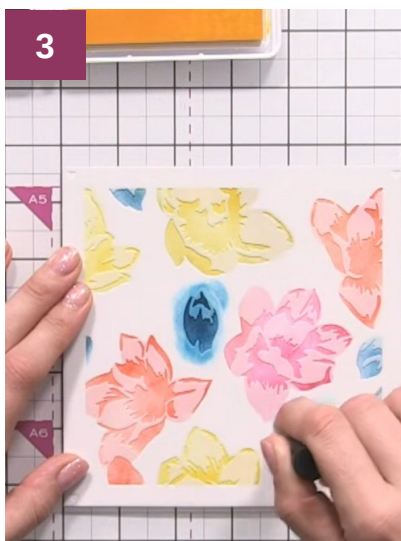

Place the first numbered stencil (number one) onto your 6x6 white card blank, positioning it carefully and ensuring it is aligned correctly on the card.

STAP 2 VAN 9

Apply colour to the stencil using brushes and ink pads. Work with yellow, orange and pink inks for the flowers, and teal for the leaves, blending multiple colours together.

STAP 3 VAN 9

Remove the first stencil and position the second stencil over the coloured area. Apply blue ink to the leaves using the Midnight ink pad, then repeat the flower colours (magenta, pink, yellow, and coral) on the remaining floral elements.

STAP 4 VAN 9

Position the third stencil over your card and apply colour lightly using the ink pads. This stencil adds texture, leaves and stalks to the background, so work gently to preserve the detail.

STAP 5 VAN 9

Position the magnolia stamp over your stencilled floral design.

Stamp twice using the black ink pad to create deep, detailed impressions of the magnolia flowers and leaves.

STAP 6 VAN 9

Place the magnolia die over the stamped floral design and run through your die-cutting machine to cut out the magnolia shape.

[BEKIJK DEZE STAP - 50:30](#)

STAP 7 VAN 9

Place the die-cut floral design into the embossing folder with the chamfered edge facing up, then run through your die-cutting machine to create raised 3D detail on the flowers.

STAP 8 VAN 9

Apply Stella paste gently to the fourth stencil area on the embossed card, working carefully around the raised floral details to add final texture.

STAP 9 VAN 9

Trim the finished floral panel to your desired size. Mount it onto a white card base to complete your card, or alternatively add acetate behind the panel for a shaker window effect if preferred.

TIPS UIT DE SHOW

- All elements of the Quattrad system can work independently—you can skip the die-cutting and just use the embossing folder to keep a white background.
- For masculine cards, use monochromatic colours such as black to grey, or brown to dark brown tea-dye tones.
- The Stella paste goes a long way, so use only a small amount and apply gently to avoid disturbing the embossed surface.
