

Hand-Painted Tree Line Watercolour Card with No-Line Ink Pad

EEN PROJECT UIT ONZE LIVESHOW - MY PODCAST - 9 JUNI 2025

OVER DIT PROJECT

Create a stunning hand-painted watercolour landscape card featuring a serene winter tree line scene. Using the innovative No-Line Ink Pad technique, you'll paint delicate evergreen trees against a soft purple, pink and blue sky with a snowy foreground and water feature. This clever method uses invisible watermark guides beneath your watercolours to help you achieve professional-looking results with accurate placement and beautiful blended colours.

STAP VOOR STAP

STAP 1 VAN 10

Cut your white watercolour card stock to approximately half of a full sheet to create a manageable working size.

STAP 2 VAN 10

Ink the tree line stamp with the No-Line Ink Pad. Press the stamp firmly onto the watercolour card to create a faint watermark outline.

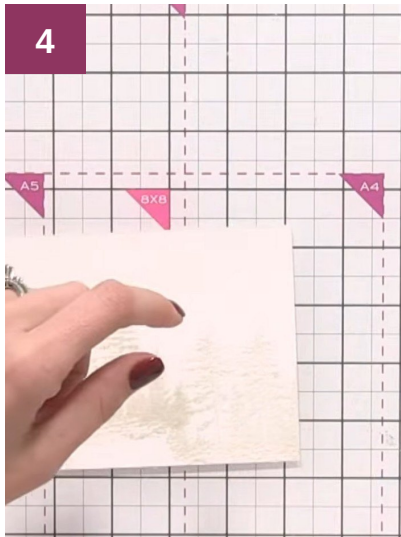

[BEKIJK DEZE STAP - 36:00](#)

STAP 3 VAN 10

Repeat stamping the tree silhouette several times across the white card panel, varying the heights to create a natural tree line effect. Ensure each impression shows enough detail to guide your watercolour painting later.

[BEKIJK DEZE STAP - 37:00](#)

STAP 4 VAN 10

Wet your paintbrush with clean water and dampen the area where you've stamped the first tree, following the watermark outline.

[BEKIJK DEZE STAP - 41:30](#)

STAP 5 VAN 10

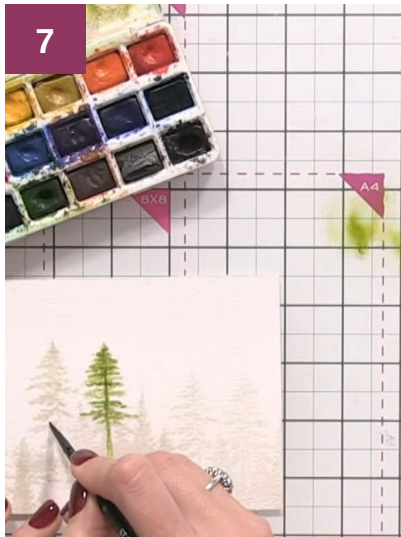

Drop green watercolour paint onto the wet area of the tree shape, allowing it to flow and blend naturally within the dampened area.

STAP 6 VAN 10

Using a darker green from your watercolour palette, add depth and shadow to the tree. Build up the colour gradually with your brush, layering the paint rather than applying it heavily all at once.

[BEKIJK DEZE STAP - 43:00](#)

**STAP 7 VAN 10**

Continue wetting and painting each remaining tree with green watercolour, varying the intensity of the green to create visual interest across your tree line composition.

[BEKIJK DEZE STAP - 46:30](#)**STAP 8 VAN 10**

Once the trees are completely dry, wet the entire card background with clean water using a brush to prepare for adding a sky.

[BEKIJK DEZE STAP - 54:00](#)**STAP 9 VAN 10**

Apply blue watercolour into the wet background around your trees, allowing the colours to blend naturally and create an atmospheric sky effect.

[BEKIJK DEZE STAP - 57:00](#)

**STAP 10 VAN 10**

Once the watercolour is fully dry, optionally add white speckles using white acrylic paint mixed with water to create a starry night effect if desired.

TIPS UIT DE SHOW

- The No-Line Ink Pad creates only a faint watermark that disperses when water is applied, so it won't show in the finished piece.
- Don't use too much water when dampening the stamped areas, or the image will blend too much and lose definition.
- You can create additional elements like water or landscape features beyond the stamped design to personalise your card.
