

Layered Hydrangea Stencil Card with Blended Inks

EEN PROJECT UIT ONZE LIVESHOW - MY PODCAST - 31 MAART 2025

OVER DIT PROJECT

Create a stunning multi-layered hydrangea flower card using coordinating stencils and blended inks. This elegant design features a beautiful purple and pink hydrangea bloom with delicate green leaves and stem, built up through careful layering to create depth and dimension. The result is an artistic, gallery-quality card that resembles a botanical watercolour painting.

STAP 2 VAN 8

Using a blending brush, pick up pink ink and apply it through the first stencil layer on your card. Build up darker tones around the edges of the hydrangea design to create dimension and depth.

STAP 4 VAN 8

Apply purple ink through stencil number two on different areas of the hydrangea to create colour variation and depth. Use a blending tool to dab the ink through the stencil openings, focusing on areas that will add dimension to the flower.

TIPS UIT DE SHOW

- If making multiple cards, create all stencil number one applications across three pieces of card before moving to stencil number two, rather than cleaning the stencil between each card.
- Don't be afraid to experiment with colour combinations through the same stencil to create unique effects.
- You can position the flower to come in from the side of the card for a more artistic composition, rather than keeping it fully within the card boundaries.
