5

STAP 5 VAN 6

Heat set the embossing powder with a heat gun, holding it at a safe distance and moving it over the design until the powder becomes shiny and fully fused to create a raised, glossy finish.

6

STAP 6 VAN 6

Using a soft brush, gently brush away any excess embossing powder that has settled on the coloured ink pads to keep them clean for future use.

TIPS UIT DE SHOW

- Use an antistatic bag before embossing to prevent powder from sticking to unwanted areas and creating a fluffy appearance.
- The higher the heat from your gun, the fewer lumps and bumps you will get in your finished artwork.
- You can colour the stamped poppy with pencils or alcohol markers before embossing if you prefer a more coloured approach.
