

Sticky Ink and Cellophane Textured Gold Background

EEN PROJECT UIT ONZE LIVESHOW - MIGHTY MONDAY - 24 FEBRUARI 2025

HET EINDRESULTAAT

OVER DIT PROJECT

Create a beautiful textured background with a sporadic gold marbled effect on soft watercolour washes. Using sticky ink transferred via cellophane and heat-set with embossing powder, you'll achieve an elegant dotted texture with wonderful dimension. This technique produces a stunning piece featuring blue, pink and yellow tones enhanced with shimmering gold accents.

Uit de show: Mighty Monday

Getoond: 24 februari 2025

Het project begint: 19:15 na het begin van de show

In deze handleiding: 7 stappen, allemaal met foto

STAP VOOR STAP

STAP 1 VAN 7

Tap a WOW! clear ultra slow drying embossing pad onto a clean, dry cellophane bag several times to coat the surface with sticky ink.

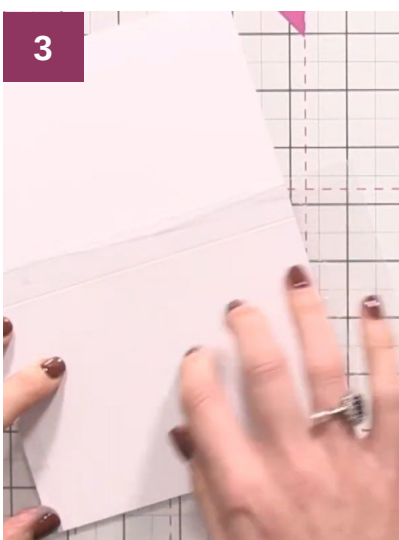

[BEKIJK DEZE STAP - 19:30](#)

STAP 2 VAN 7

Press the sticky ink pad onto the cellophane bag in a random, sporadic pattern across the surface. Apply the ink unevenly to create texture and variation.

[BEKIJK DEZE STAP - 20:00](#)

STAP 3 VAN 7

Tap and press the cellophane bag across the white card to transfer the sticky ink unevenly, creating a textured pattern.

[BEKIJK DEZE STAP - 20:30](#)

STAP 4 VAN 7

Carefully lift and peel the cellophane bag away from the card to reveal the textured gold background pattern.

[BEKIJK DEZE STAP - 21:00](#)

STAP 5 VAN 7

Sprinkle gold embossing powder over the sticky ink areas on the white card. Tap off the excess powder and heat emboss to set the design.

[BEKIJK DEZE STAP - 21:30](#)

STAP 6 VAN 7

Tap off any excess embossing powder back into the pot. Hold the paper over the pot and gently tap to remove loose powder from the surface.

[BEKIJK DEZE STAP - 22:00](#)

STAP 7 VAN 7

Use a heat gun to melt and set the embossing powder, moving it steadily over the surface. The powder will transform into a smooth, textured metallic finish as it heats.

TIPS UIT DE SHOW

- Sticky ink is clear, so you won't see it on the bag—trust the process and tap firmly.
- Uncoated card stock may not accept the sticky ink as readily as smoother card; smoother cardstock works better for this technique.
- Heat-setting transforms the subtle texture into a dramatic, dimensional finish that wouldn't be visible without it.
