EEN PROJECT UIT ONZE LIVESHOW - CREATE TOGETHER CLUB - 14 FEBRUARI 2025

OVER DIT PROJECT

Create a stunning ombre effect card featuring a beautiful poppy design that seamlessly transitions from light to dark pink tones. This elegant piece is achieved by stamping onto graduated colour card stock, cutting into strips, and reassembling them to create a smooth colour gradient. The paper piecing technique produces a sophisticated, contemporary card perfect for any occasion.

STAP VOOR STAP

1

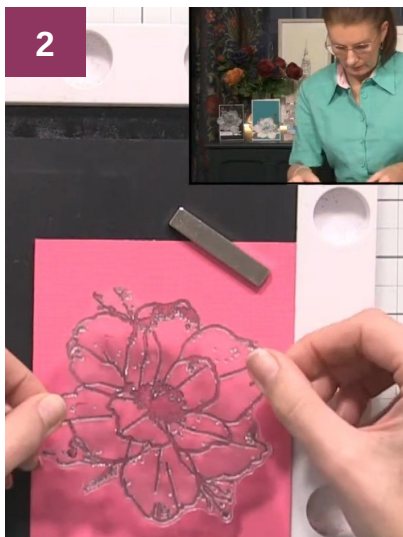

STAP 1 VAN 12

Gather four pieces of card stock in graduated colours, ranging from light to dark. For example, use shades progressing from light pink through to deep purple.

2

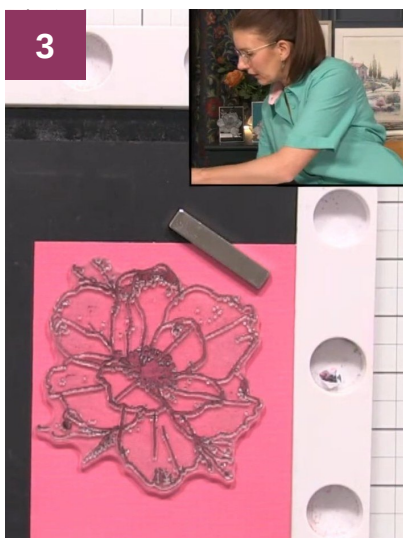

STAP 2 VAN 12

Ink up the large poppy stamp with black ink using an ink pad or applicator.

3

STAP 3 VAN 12

Stamp the poppy image onto the top portion of each piece of pink card stock, keeping the stamp in the same position for all four pieces to create a consistent design.

STAP 4 VAN 12

Stamp a sentiment below the poppy on each pink piece using the same position for consistency. This ensures all three cards have matching layouts.

STAP 5 VAN 12

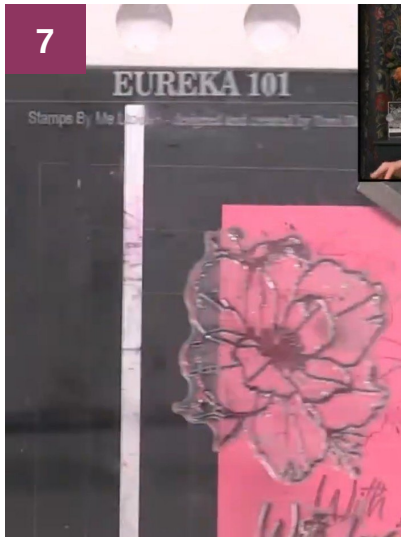

Using your guillotine, cut all four stamped pieces into one-inch strips.

[BEKIJK DEZE STAP - 31:00](#)

STAP 6 VAN 12

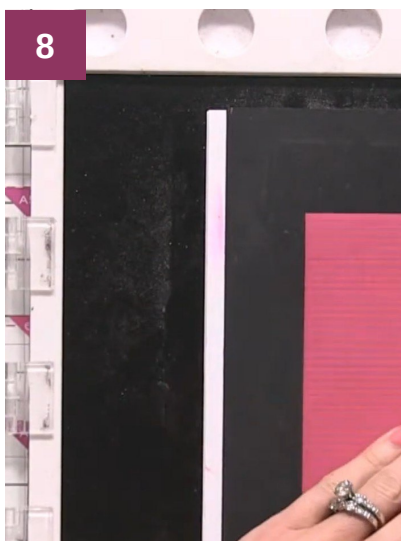

Arrange your paper strips in colour order from lightest to darkest to create your ombé sequence. Lay them out on your work surface to check the graduated effect before adhering.

[BEKIJK DEZE STAP - 31:30](#)

STAP 7 VAN 12

Take your black card base and begin adhering the pink ombé strips from top to bottom in your chosen colour order, starting with the darkest shade at the top.

[BEKIJK DEZE STAP - 32:00](#)

STAP 8 VAN 12

Position each pink strip carefully on the black card, ensuring the poppy design lines up continuously across the colour gradient from light to dark.

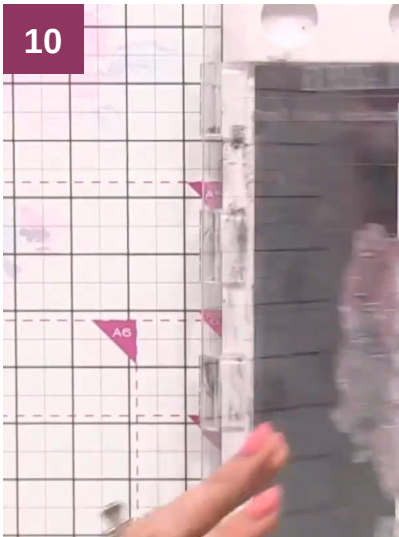

[BEKIJK DEZE STAP - 32:30](#)

STAP 9 VAN 12

Continue adding strips to the card front, alternating between your four pink colours to build up the ombé effect. Work your way across the panel, ensuring each strip is adhered smoothly.

STAP 10 VAN 12

Using a trimmer or craft knife with a ruler, trim the assembled card to create clean, straight edges. Ensure all layers are aligned and the card has neat, even borders.

11

STAP 11 VAN 12

Use a white gel pen to add highlights and detail to the poppy stamped image. The white gel pen will add dimension and bring out features of the flower. Allow the gel pen to dry, noting it will dry back slightly lighter than when first applied.

[BEKIJK DEZE STAP - 34:00](#)

12

STAP 12 VAN 12

Adhere the finished ombé piece to a card blank to complete your card. Smooth down firmly to ensure good adhesion.

TIPS UIT DE SHOW

- Lay out your colour strips before adhering them so you can plan your ombé sequence.
- Make sure you line up the design, not the card pieces, when reassembling for a seamless effect.
- White gel pen highlights will dry back lighter, so do not be afraid to apply it generously.
