

Panda Pocket Pal Card with Patterned Layers

EEN PROJECT UIT ONZE LIVESHOW - ONE DAY SPECIAL - 24 JANUARI 2025

HET EINDRESULTAAT

OVER DIT PROJECT

Create a charming card featuring an adorable panda character emerging from a layered pocket design. This delightful project combines patterned papers in navy, coral and gold tones with a sweet white panda that has been carefully shaded to add dimension. The card uses layering techniques and precise cutting to create a dimensional pocket effect with coordinating geometric patterns.

TIPS UIT DE SHOW

- You can use alcohol markers or watercolour to shade white elements instead of ink pads.
- Better to apply light shading first and add more colour gradually rather than applying too much dark colour at once.
- Use foam pads at different heights to create visual interest and prevent layers from blending together.
