

Lamination-stempelkaart met aquareleffect

EEN PROJECT UIT ONZE LIVESHOW - HOBBYMAKER TV - 15 AUGUSTUS 2026

HET EINDRESULTAAT

OVER DIT PROJECT

Create a stunning artistic card featuring a woman's profile with a watercolour flower in her hair on a golden background. Using the innovative lamination stamp system, you'll achieve a beautiful painted effect by combining solid colour stamping with watercolours and fine detail overlay. The two-part stamping technique creates depth and dimension for a truly professional finish.

STAP 1 VAN 10

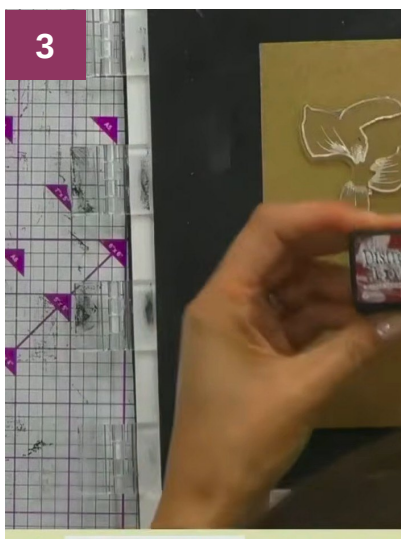

Take a craft-coloured card blank as your base. This will form the foundation of your card.

STAP 2 VAN 10

Select your solid black lamination stamp and position it on the gold mirror card. The embossed image should show the bird design clearly on the metallic surface.

STAP 3 VAN 10

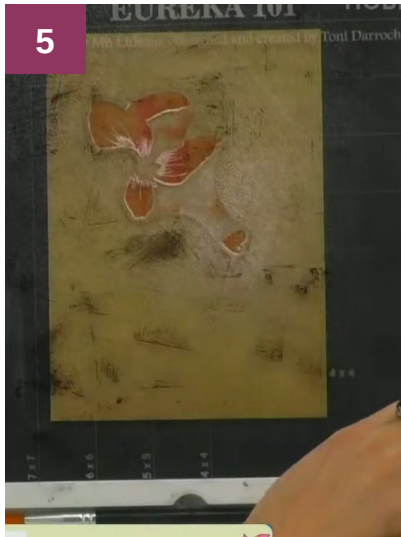

Ink up the embossed dove stamp by tapping multiple Distress Ink colours onto it. Use white, orange and pink ink pads to create a watercolour effect on the raised image.

STAP 4 VAN 10

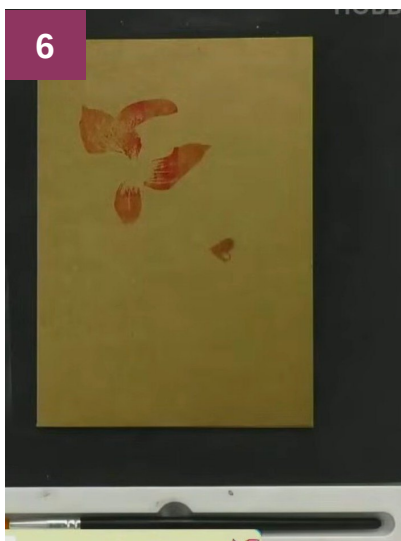

Lightly spray the inked stamp with water to create a watercolour effect. Be careful not to over-spray, as too much water will cause the ink to run excessively.

[BEKIJK DEZE STAP - 21:15](#)

STAP 5 VAN 10

Stamp the flower and leaf images onto your gold card using the orange ink, pressing down firmly to transfer the colour. Repeat the stamping process to build up the watercolour effect with multiple impressions.

[BEKIJK DEZE STAP - 21:30](#)

STAP 6 VAN 10

Allow the card to dry completely. The stamped feather images in coral and pink tones need to be fully dry before proceeding to the next step.

[BEKIJK DEZE STAP - 22:00](#)

STAP 7 VAN 10

Clean your stamp thoroughly. Ink up the detailed outline stamp using black ink, ensuring even coverage across the entire stamp surface.

Position the clear detail stamp over the coloured flower on the gold card, carefully aligning it with the visible watercolour areas showing through from behind. Press down firmly to stamp the outline detail over the coloured portions.

[BEKIJK DEZE STAP - 23:45](#)**STAP 9 VAN 10**

Stamp the detailed outline portion of the flower stamp onto the card over the watercoloured image to complete the layered effect. Press firmly to ensure a clear impression.

[BEKIJK DEZE STAP - 24:15](#)**STAP 10 VAN 10**

If desired, add a sentiment stamp underneath the floral design, leaving plenty of white space around it to maintain the elegant look of the card.

TIPS UIT DE SHOW

- If you over-spray with water, don't panic—the watercolour effect is fluid and forgiving; you can always add more detail on top.
- Start with light ink application and build up the colour gradually for better control.
- You don't need to line up the stamps perfectly; slight imperfections add to the artistic, hand-painted look.
