

Watercolour Painted White Rose Embossing Folder Card

EEN PROJECT UIT ONZE LIVESHOW - MIGHTY MONDAY - 20 JANUARI 2025

HET EINDRESULTAAT

OVER DIT PROJECT

Create a beautiful watercolour card featuring delicate white roses with soft pink and yellow tones. Using a 3D embossing folder and watercolour paints, you'll achieve a naturally shaded floral design with professional-looking depth and dimension. The watercolour technique allows the paint to settle into the embossed grooves, creating realistic shadows that bring the roses to life.

STAP VOOR STAP

1

STAP 1 VAN 10

Cut your watercolour card stock to size using your die-cutting machine with the white rose embossing folder. Place the card stock into the folder and run it through the machine to emboss the design.

STAP 2 VAN 10

Using a damp brush with clean water, carefully wet the first petal of the embossed white rose design. Be precise with where you apply the water, keeping it within the petal area.

STAP 3 VAN 10

Dilute purple or grey ink with water to create a very pale shade. Using a fine brush, drop a tiny amount of the diluted ink into the corner of the wet petal on your embossed image.

STAP 4 VAN 10

Allow the purple watercolour to disperse naturally into the water on the embossed rose petals, creating a soft shadow effect. Keep the card steady with your other hand whilst the colour spreads.

STAP 5 VAN 10

Continue applying water followed by diluted purple watercolour to the remaining rose petals on the embossed card. Allow each petal to dry slightly before moving to the next to prevent colours bleeding together.

[BEKIJK DEZE STAP - 24:45](#)

STAP 6 VAN 10

Apply a slightly darker shade of purple to the centre of each petal on the embossed rose design to add depth and dimension. Use a fine brush or pen to carefully place the colour where needed.

[BEKIJK DEZE STAP - 26:30](#)

STAP 7 VAN 10

Wet the centre area of the flower with clean water using a paintbrush. Drop in diluted yellow ink to the dampened area, allowing it to spread naturally into the flower centre.

[BEKIJK DEZE STAP - 28:00](#)

STAP 8 VAN 10

Using a brush with orange watercolour, add shadows to one side of the flower petals to create the effect of light reflecting from one direction.

[BEKIJK DEZE STAP - 34:00](#)

STAP 9 VAN 10

Using a diluted green watercolour, add very light leaf veins to the flowers. Keep the colour minimal and subtle for a natural effect.

[BEKIJK DEZE STAP - 35:30](#)

10

STAP 10 VAN 10

Allow the watercolour painting to dry completely. Trim the panel to size, add your chosen sentiment, and mount onto an A2 card base to complete your card.

TIPS UIT DE SHOW

- Less colour is more—use very diluted ink to build up gradually rather than applying too much at once.
- Watercolour card stock stays wet longer than regular card, giving you more time to blend and move colours around.
- If you create a harsh line you don't like, use a damp brush to soften it by pouncing gently over the edge.
