

Kaart met reflectiestempel op designpapier

EEN PROJECT UIT ONZE LIVESHOW - MY PODCAST - 13 JANUARI 2025

OVER DIT PROJECT

Create a stunning lakeside scene card using a reflection stamp on scenic patterned paper. The stamp features a full image at the top with its mirror reflection below, creating a beautiful depth effect with trees, water and mountains. Layer the stamped scene onto black and white card to create an elegant framed effect perfect for any occasion.

4

STAP 4 VAN 6

Re-ink the top portion of the landscape stamp with darker black ink, focusing on the sky and tree areas to create more depth and contrast.

5

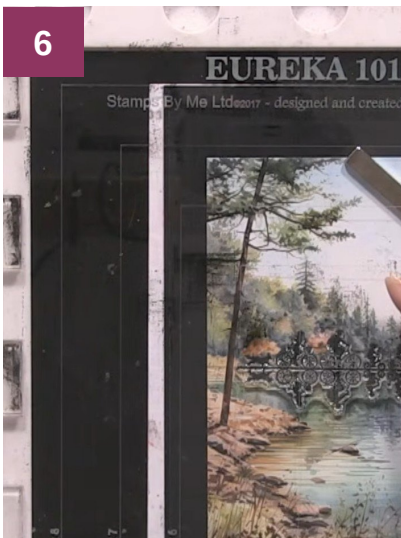

STAP 5 VAN 6

Stamp the design again in exactly the same position to darken the top portion and create the reflection effect in the water.

6

STAP 6 VAN 6

Carefully lift the stamp straight up to reveal the finished design. The reflection and shadow will create a natural-looking mirrored effect on the water. Allow the ink to dry completely.

TIPS UIT DE SHOW

- The reflection is built into the stamp, so no additional technique is needed.
- Using lighter ink first and then darker ink creates a realistic shadow effect in the water.
