OVER DIT PROJECT

Create an elegant glueless gift box measuring 4×4×4 inches using decorative papers in coordinating floral designs. This clever construction uses a hook-and-eye locking mechanism that requires no adhesive, making it both practical and reusable. The box features beautiful pink, grey, and blue botanical patterns perfect for presenting special gifts.

STAP 11 VAN 13

Pinch the diagonal score lines to create the box's three-dimensional shape. The butterfly patterned paper should form the outer sides of the box whilst the white card forms the inner structure.

STAP 12 VAN 13

Fold up all four sides of the box, manipulating the paper gently to form the box shape. The dragonfly patterned paper should form the outer sides with the grey paper forming the inner lining.

TIPS UIT DE SHOW

- Give your score lines a really good, firm score to ensure the box folds neatly and the hook-and-eye system works smoothly.
- Once you've made one box, you'll be able to make them quickly—don't get overwhelmed by the measurements.
- You can batch make boxes and decorate them with tags and ribbon for gift-giving.
