**STAP 6 VAN 10**

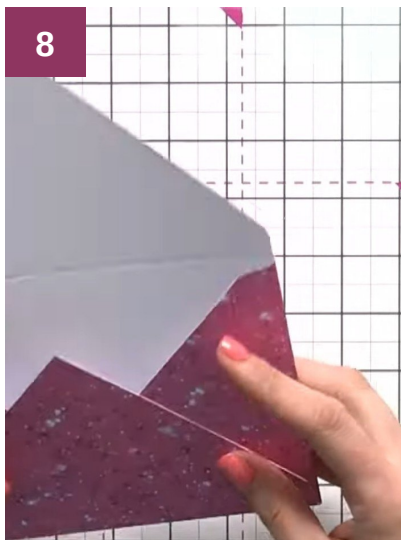

Score across the paper using the box maker tool and punch the corners. The score lines will help create the envelope folds.

BEKIJK DEZE STAP - 21:30

**STAP 7 VAN 10**

Repeat the process for the remaining score lines: twist the paper to align each score line with the tool, score it, and punch the corner. Continue until all four sides are complete.

STAP 8 VAN 10

Fold the envelope into shape by bringing the triangular flaps together. Layer the grey cardstock piece over the glitter cardstock to form the envelope structure.

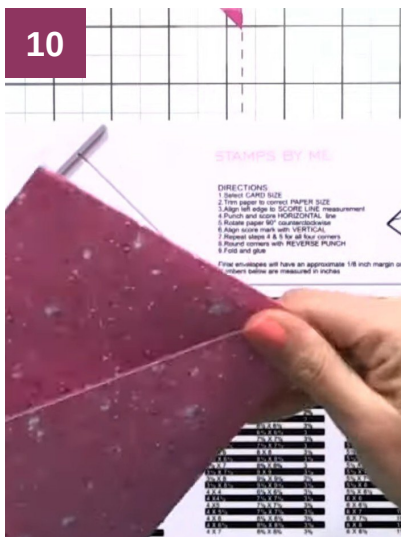

BEKIJK DEZE STAP - 22:00

STAP 9 VAN 10

Tuck in the small tail at the top of the envelope for a neater finish.

BEKIJK DEZE STAP - 22:15

STAP 10 VAN 10

Use the corner punch feature on the box maker tool to round the corners of the envelope flap. Position each corner of the flap into the corner punch and press down to create neat rounded edges.
