STAP VOOR STAP

1

STAP 1 VAN 11

Using a flat brush and clean water, wet the top portion of the card above the house line. Work on a slightly tilted surface to allow the water to settle evenly.

2

STAP 2 VAN 11

Using a clean water brush, carefully paint water around the outlines of the stamped houses to protect them from the sky colour that will be added later.

3

STAP 3 VAN 11

Apply pink watercolour to the wet sky area by pouncing your brush. Hold the card at an angle so the colour disperses downward across the sky.

STAP 4 VAN 11

Add pink watercolour to the sky area above the buildings, pouncing the colour onto the foiled areas. The foil will resist the watercolour, creating natural separation and texture in the sky.

STAP 5 VAN 11

Add purple watercolour to the sky area, blending it with the blue. Continue to pounce the brush for even distribution of colour across the background.

STAP 6 VAN 11

Soften any harsh colour edges on the watercolour background by gently blending with a damp brush or your finger. Work the colours together where they meet to create smooth transitions between the pink, purple and blue areas.

STAP 7 VAN 11

Using yellow watercolour, paint all the house buildings. Work from top to bottom, ensuring the blue sky is completely dry before you begin.

8

STAP 8 VAN 11

Add orange watercolour to half of each building to create a lit effect, then apply a darker orange line down the side for dimension.

9

STAP 9 VAN 11

Dry the card completely using a heat gun, moving it steadily over the watercoloured sky and buildings until fully dry. Alternatively, leave the card to air dry naturally.

10

STAP 10 VAN 11

Add white paint flicks across the sky and buildings to create snowflakes. Use the end of your paintbrush to add gold sparkle details to the houses.

11

STAP 11 VAN 11

Mount the finished painted winter scene onto a card base. The card features the coloured houses at the bottom with the purple and pink gradient sky above, complete with the gold foiled Santa sleigh and sparkle details.

TIPS UIT DE SHOW

- Watercolour dries two shades lighter than it appears when wet, so apply darker tones than you think you need.
- The gold foil on the card naturally resists watercolour paint, so you don't need to worry about contaminating the foiled areas.
- If you're not happy with the colour distribution while it's still wet, use a spray bottle or flick water from your fingers to reactivate and blend the paint.
