

Lamination Stamp Floral Card with Watercolour Effect

EEN PROJECT UIT ONZE LIVESHOW - HSN OCTOBER PRODUCT PREVIEW - 24 OKTOBER 2024

OVER DIT PROJECT

Create a beautiful floral card with a realistic watercolour effect using a two-part lamination stamp system. This elegant design features blue and yellow flowers with green foliage on a white background, framed with black matting and the sentiment 'Thanks a bunch!'. The technique involves colouring solid stamp portions, spraying with water, stamping, then layering detailed stamps on top to achieve a painted look without actually painting.

STAP 3 VAN 9

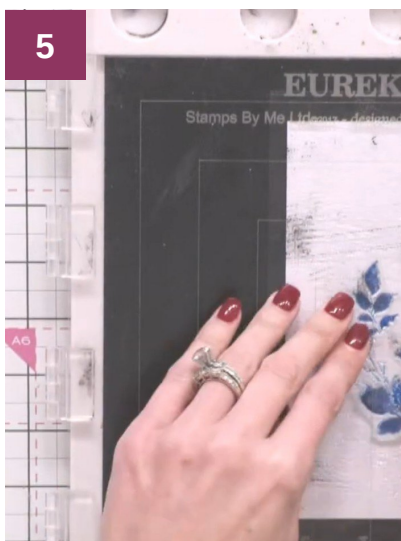

Spray the inked stamp three times with water to create a watercolour effect. This will help the ink blend and give a softer, more artistic appearance.
