

3D-kerstbal met gekleurde inkt en kwastje

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 27 AUGUSTUS 2024

HET EINDRESULTAAT

OVER DIT PROJECT

Create a stunning 3D bauble ornament with layered die-cut pieces featuring elegant floral designs in rich greens and reds. Use coloured ink to add depth and shading to each layer, then finish with a decorative tassel for a beautiful hanging decoration. This festive ornament combines die-cutting, ink blending and dimensional layering techniques for a professional result.

Choose one side of the bauble piece and apply a heavier concentration of the gold ink to create shading and depth. Build up the colour by dabbing the ink applicator repeatedly on the surface.

Spray a small amount of water onto the inked bauble to add texture and create a distressed look. The water will react with the ink to create interesting patterns.

STAP 6 VAN 9

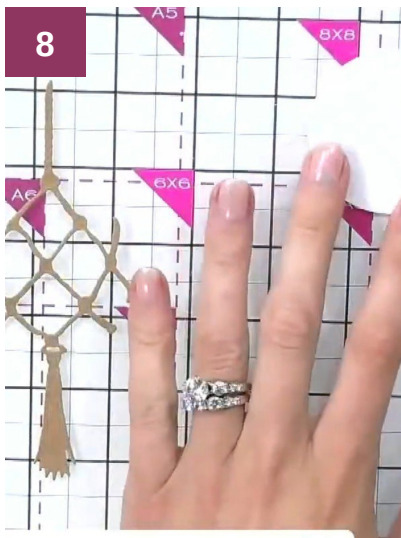

Use a piece of card or paper towel to dab and lift some of the wet ink from the 'NOEL' letters for additional texture and variation.

[BEKIJK DEZE STAP - 47:30](#)

STAP 7 VAN 9

Apply a darker ink colour such as brown or black around the edges of the bauble pieces and the tassel area to add depth and a vintage feel.

STAP 8 VAN 9

Attach the decorative tassel element to the top of the bauble using adhesive. Apply the adhesive to the top of the assembled bauble structure and press the tassel firmly in place.

TIPS UIT DE SHOW

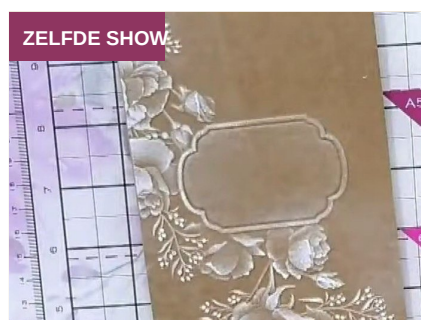

- Apply ink lighter on one side and heavier on the other to create the illusion of a light source catching the bauble.
- Water adds lovely texture and a distressed look to the bauble.
- The knots on the tassel hang proud and make the bauble look like it's actually swinging.
