

Simple Mini Album with Mount Board Cover

EEN PROJECT UIT ONZE LIVESHOW - THE THURSDAY DROP - 8 OKTOBER 2026

OVER DIT PROJECT

Create a beautiful handmade mini album with a sophisticated mount board cover wrapped in rich brown textured paper. This project demonstrates fundamental album-making techniques including constructing a spine, front and back covers with hinges, and lined interior pages perfect for holding photographs, gifts, or cherished mementos. The finished album features a classic design with coordinating papers and a professional bound edge.

STAP VOOR STAP

1

STAP 1 VAN 12

Cut your A4 mount board in half to create two pieces for the front and back covers. Then cut a spine piece approximately 1.5 inches wide from the mount board.

[BEKIJK DEZE STAP - 25:30](#)

2

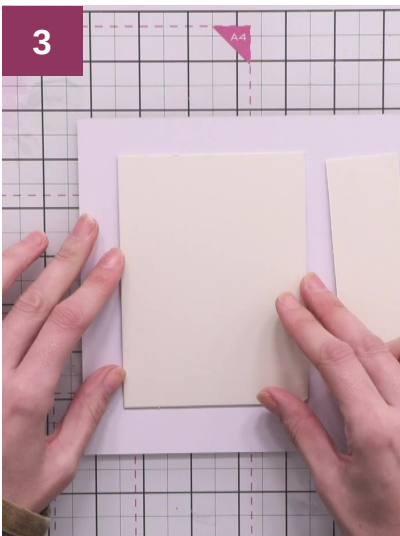

STAP 2 VAN 12

Select coordinating decorative papers from the Classic Textures Paper Collection. Cut pieces large enough to wrap around your mount board pieces, leaving approximately 1 inch (2.5 cm) overhang on all sides.

[BEKIJK DEZE STAP - 28:30](#)

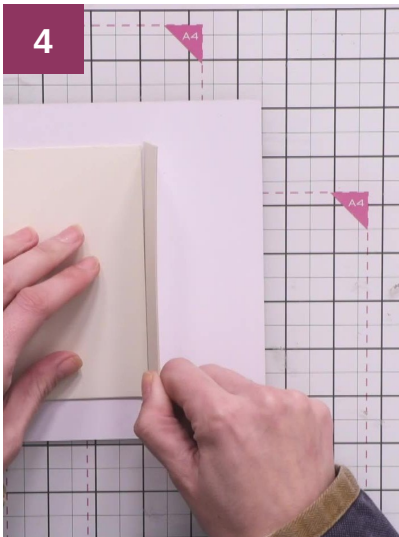

3

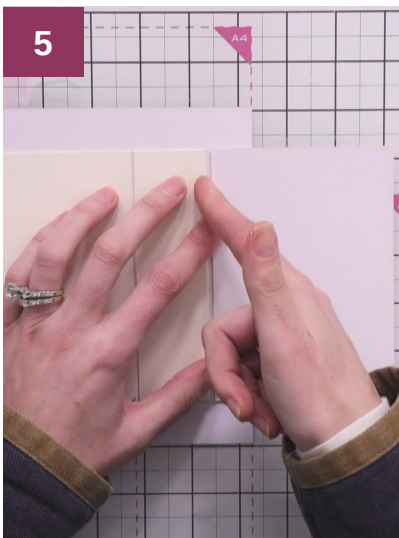

STAP 3 VAN 12

Apply fast-grab glue to the mount board piece and carefully attach the first decorative paper, ensuring there is even overhang on all sides. Smooth down firmly to secure.

[BEKIJK DEZE STAP - 30:00](#)

**STAP 4 VAN 12**

Position the spine piece between the front and back covers on your cutting mat, leaving a gap equal to the thickness of your mount board on each side. This gap allows the album to open properly.

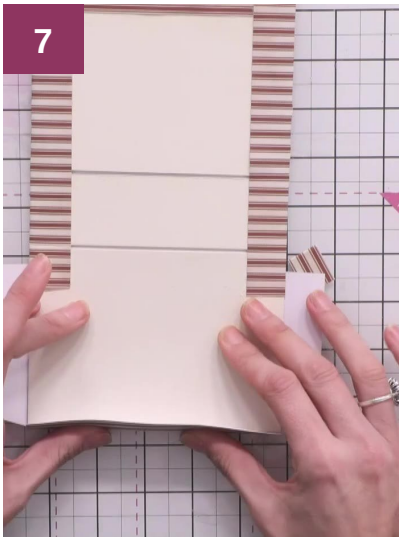

[BEKIJK DEZE STAP - 31:45](#)**STAP 5 VAN 12**

Wrap the decorative paper around the spine and covers. Manipulate and warm the paper with your fingers to educate the fibres where to bend, creating neat folds around the mount board.

[BEKIJK DEZE STAP - 33:00](#)**STAP 6 VAN 12**

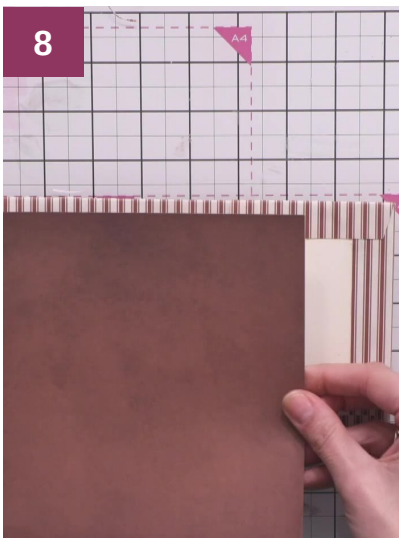

Cut away the corner squares from the wrapped paper. Chamfer the edges at an angle with scissors so they will sit neatly when folded inside.

[BEKIJK DEZE STAP - 38:45](#)

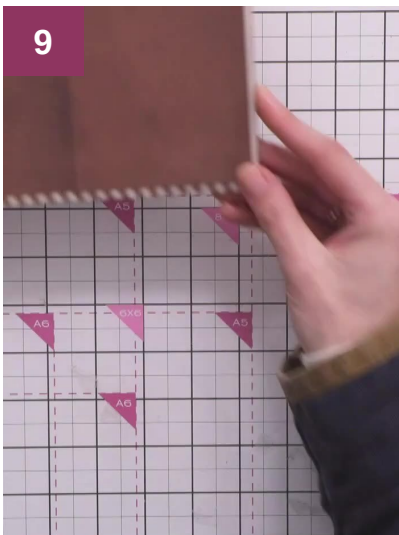

STAP 7 VAN 12

Apply glue to the wrapped paper edges inside the covers. Press down firmly to secure the paper and hide the mount board, ensuring the corners are neat and flat.

[BEKIJK DEZE STAP - 42:00](#)

STAP 8 VAN 12

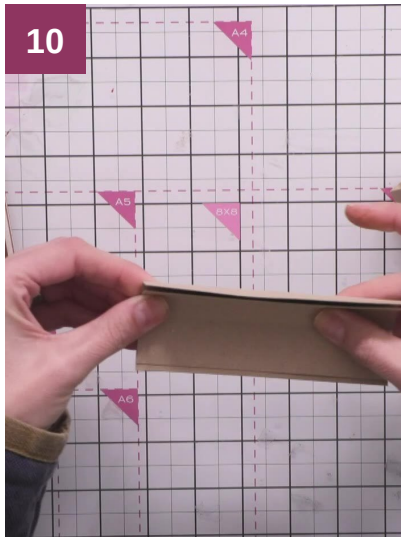

Cut pieces of coordinating striped paper to fit the interior panels of your album. This will cover the structural elements and create a neat, finished appearance inside.

[BEKIJK DEZE STAP - 46:00](#)

STAP 9 VAN 12

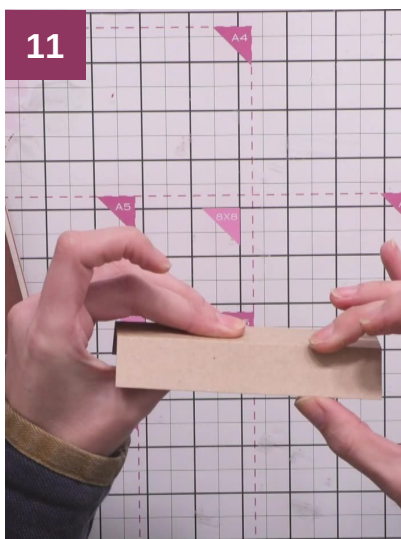

Cut strips of card stock and score them at regular intervals to create hinges. The measurements should be based on your spine width. These scored strips will form legs to hold your album pages together.

[BEKIJK DEZE STAP - 55:30](#)

STAP 10 VAN 12

Glue the hinge strips together, nesting them inside each other to create a cascading effect. Hold the pieces in position until the glue sets to ensure they are properly aligned.

[BEKIJK DEZE STAP - 1:01:30](#)

STAP 11 VAN 12

Cut your page pieces to size, ensuring they fit within the album dimensions without exceeding the cover size. Apply glue to each hinge leg and attach a page piece, pulling slightly away from the spine as you adhere it to allow the pages to open smoothly.

[BEKIJK DEZE STAP - 1:02:30](#)

STAP 12 VAN 12

Glue the completed hinge and page assembly into the centre of your album spine. Ensure everything is aligned and level before the glue sets.

[BEKIJK DEZE STAP - 1:12:30](#)

TIPS UIT DE SHOW

- Leave a gap between the spine and front/back covers equal to the thickness of your mount board so the book can open without cracking.
- Manipulate and warm the paper with your fingers before gluing to educate the fibres where they need to bend, preventing cracking.
- Pull pages slightly away from the spine when gluing so they do not catch when people open and close the book.
