

Imala Stamp – Bleached Watercolour Technique Card

EEN PROJECT UIT ONZE LIVESHOW - SBM LATEST PRODUCTS AND INSPIRATION - 27 JULI 2024

OVER DIT PROJECT

Create a sophisticated artistic card featuring a European street scene with a bleached watercolour effect. Using the Escape the Ordinary stamp, you'll layer coloured and black ink with water spray to achieve a soft, fuzzy haze, then add white gel pen highlights for depth and dimension. The result is an elegant card with a contemporary, artistic feel in muted tones on a dramatic black background.

STAP VOOR STAP

1

STAP 1 VAN 8

Stamp the Escape the Ordinary image onto a craft card blank using a teal or coloured ink pad. Spray the stamped image lightly and allow the ink to spread slightly on the card surface.

2

STAP 2 VAN 8

Lightly spray the stamped image with water using a spray bottle. This will create a fuzzy, bleached watercolour effect on the stamped design.

3

STAP 3 VAN 8

Allow the card to dry slightly so the paper is damp but not soaking wet. The bleached areas should be visible but the card should not be dripping with water.

**STAP 4 VAN 8**

Re-stamp the same image using black ink, carefully aligning it over the bleached original stamp impression on the kraft cardstock.

**STAP 6 VAN 8**

Use a white gel pen to enhance and highlight the lines of the stamped design, adding detail and definition to the architectural features of the image.

7

STAP 7 VAN 8

Using a white gel pen, add highlights to the stamped image by following the natural lines of the design. Work along the architectural details and building features to create dimension and depth.

STAP 8 VAN 8

Using a white gel pen or paint pen, add highlights to small windows and architectural details you wish to emphasise on the street scene image.

TIPS UIT DE SHOW

- Make sure your card stock is completely dry before using the white gel pen.
- The coloured ink creates a haze around the image; choose colours that complement your theme, such as yellow for a night sky effect.
- This technique looks different every time, so do not worry if your result is unique.
