

Z-fold-kaart met gerilde panelen

EEN PROJECT UIT ONZE LIVESHOW - MY PODCAST - 10 JUNI 2024

OVER DIT PROJECT

Create an elegant shaped Z-fold card featuring two different sized panels that create a dimensional display when opened. This sophisticated design uses white card blanks with delicate floral patterned paper, perfect for showcasing your favourite decorative elements. The project uses scoring and folding techniques to achieve the distinctive Z-fold structure with a proud front panel.

STAP 4 VAN 10

Fold the grey card along the score lines to create a Z-fold formation, bringing the panels together to form a W-shape when viewed from the side.

STAP 5 VAN 10

Take the smaller white card blank and fold it back on itself. Position it over the dark grey triangular panel to create a layered effect inside your z-fold card.

STAP 8 VAN 10

Position a coordinating decorative panel on the back of the card. Use adhesive to secure it in place, ensuring it's centred and aligned properly.

9

STAP 9 VAN 10

Trim away any excess card stock from the bottom edges of the card to neaten and align the panels.

10

STAP 10 VAN 10

Test that the card closes properly by gently folding it shut. Check that all panels align correctly and that the card sits flat when closed before finalising any adhesive applications.

TIPS UIT DE SHOW

- You can use card blanks from your existing stash in any size as long as you have two different dimensions.
- Leave white panels down the sides to coordinate with the back of the card for a cohesive design.
- If you have off-cuts of card stock, use them to fill gaps and hide the joins on the card.
