

## Gelaagde 3D-rozenkaart met sjabloonsysteem

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 9 JUNI 2024

### OVER DIT PROJECT

Create a beautiful dimensional floral card using a five-layer stencil system with coordinating die. By layering stencils and adding colour, you build up a stunning 3D rose design with pink roses and green foliage on a soft watercolour background. The technique gives a professionally painted look with depth and dimension, perfect for special occasions.

## STAP 2 VAN 8

**Place stencil number one on your white card stock, aligning it as desired.** Apply ink through the stencil using a blending brush, working the colour through the cut-out areas.

## STAP 3 VAN 8

**Use a heat tool to dry the first inked layer completely.** Once dry, lightly moisten the inked area with water using a brush to create a soft watercolour effect.

## STAP 4 VAN 8

**Position the second stencil on top of your card stock, lining it up with the edge or using the heart registration guides.** Apply a different colour of ink through the stencil using a blending brush.

## STAP 5 VAN 8

**Continue building up the rose design by applying stencils three, four and five in sequence.** Use a different colour of Dye Izink for each layer, such as brown (Brou de noix) and pink (Rosée). Allow each layer to dry completely before applying the next stencil.

## STAP 6 VAN 8

**If you've lost definition of your rose shape, return to stencil one and re-apply the original ink colour to redefine the outline.** Use a blending brush to carefully add the ink back over the rose areas that need more definition.

## STAP 7 VAN 8

**Use the coordinating die to cut out your finished design for a clean edge.** Position the die over the painted panel and run through your die-cutting machine. Alternatively, leave it as a painted panel without die-cutting.

## TIPS UIT DE SHOW

- There are no rules in crafting—if you're unhappy with the result, change the colour or start again.
- You can use the detailed stencil portion on its own and colour it with traditional markers, pens or pencils if you prefer not to spray.
- If you've over-sprayed and lost your design, simply reapply stencil one to confirm and redefine the shape.
