

Reflection Trees Landscape Card with Stamping Variations

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 9 JUNI 2024

OVER DIT PROJECT

Create three stunning landscape cards featuring reflection trees, each capturing a different time of day. Using a single stamp design, you'll produce morning, noon and night scenes through varied stamping techniques and colour intensities. The finished cards showcase silhouetted trees with their reflections, creating atmospheric effects in aqua, purple and grey tones.

STAP VOOR STAP

STAP 1 VAN 10

Select three pre-printed card panels from your magazine, each featuring a different background colour or pattern. These will form the base for your landscape cards.

STAP 2 VAN 10

Ink your reflection tree stamp fully with black ink and stamp it onto the first panel, positioning the reflection down the centre.

STAP 3 VAN 10

Apply ink only to the top portion of the tree stamp. Stamp this onto the bottom section of the same panel to create a lighter reflection effect below the main trees.

STAP 4 VAN 10

Position the stamp higher on your second panel and stamp only the top portion to create a different tree formation.

5

STAP 5 VAN 10

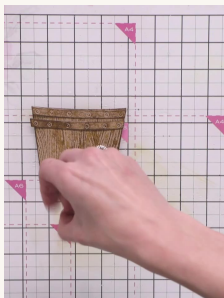

Apply ink to the second panel to create the reflection effect. Work the ink to create a darker tone at the top, gradually lightening towards the bottom for a natural reflection appearance.

6

STAP 6 VAN 10

On your third panel, stamp only the bottom portion of the tree stamp, omitting the reflection section to create a different composition. Position the stamp carefully to capture just the lower trees and foliage.

STAP 8 VAN 10

Using a white gel pen, add highlights to the trees on your finished panels to create the effect of sunlight or moonlight coming through the foliage.

STAP 9 VAN 10

Mount your three stamped panels onto black card stock in sequence, arranging them to tell a story from morning through to night. Position the panels side by side to create a triptych effect showing the progression of the day.

STAP 10 VAN 10

Add a sentiment from your stamp set to complete your card. Position it in a suitable location on the front of your card and stamp it clearly.

TIPS UIT DE SHOW

- One stamp can be used three different ways by varying where you apply ink and how you position the stamp on your card.
- The reflection system tells a story—use it to convey time of day or emotion in your card design.
- You can use sentiments from your stamp set or watercolour over them to push them back in the design.
