OVER DIT PROJECT

Make a sophisticated monochromatic card that showcases the beauty of working within a single colour palette. Using grey tones on white cardstock, you'll layer stamped heart motifs to create depth and dimension without colour variation. This elegant, minimalist design demonstrates how restraint in colour can produce striking results.

STAP 3 VAN 7

Stamp your chosen design onto the card base using the same colour ink as your card. Position the stamp carefully to create a tone-on-tone effect.

STAP 4 VAN 7

Layer additional stamping at different intensities to create depth. Use the same stamp with varying pressure or ink coverage to build up tonal variations on your white panel. This creates visual interest through subtle differences in the darkness of each stamped impression.

STAP 5 VAN 7

Layer different tones of your chosen colour to create depth and visual interest. Stamp the tree line image in a darker shade at the top of your pink card panel, then add lighter pink elements below to build a tonal composition.

STAP 6 VAN 7

Add a sentiment stamp or sticker in the same colour family to complete your monochromatic card design. Position it on your card front to complement the focal image.
