Aquarel-bloemenkaart met laagjesstempels

EEN PROJECT UIT ONZE LIVESHOW - HSN SHOW MAY 14TH - 9 MEI 2024

HET EINDRESULTAAT

OVER DIT PROJECT

Create a beautifully painted-looking floral card using two-part lamination stamps. The colour portion is stamped first with water spray, then the detail layer adds realistic depth and shading that looks hand-painted. This technique produces stunning spring-themed cards featuring adorable ducklings with a professional watercolour effect.

Add a sentiment stamp such as 'Create Adventures for Yourself' below your watercoloured floral design to complete the card.
Position it centrally beneath the ducklings and flowers.

TIPS UIT DE SHOW

- If you spray too much water and the result looks muddy, try spraying just twice on your next attempt.
- You can use grey ink for the detail layer to create a pencil sketch effect instead of black.
- If you don't line up the detail stamp perfectly, it still looks beautiful—the watercolour effect is forgiving.
