STAP 5 VAN 7

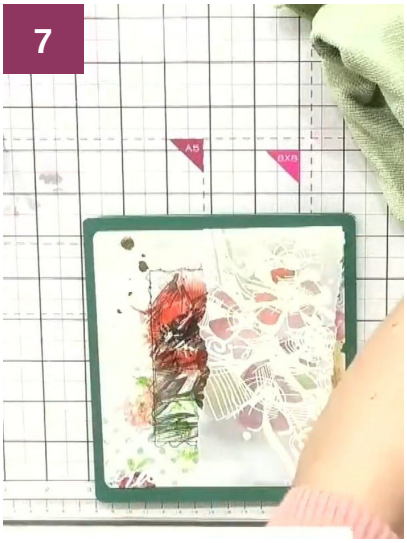
Dilute the blending ink with water and apply additional colour washes to the vellum using a brush or sponge. Build up layers of colour to create depth and dimension on the stamped design.

BEKIJK DEZE STAP - 24:45

STAP 6 VAN 7

Fold the painted vellum over and adhere it to the card from the back only. This allows the vellum to maintain freedom of movement rather than being stuck down flat.

BEKIJK DEZE STAP - 30:45



STAP 7 VAN 7

Add decorative mesh and embellishments to create mixed media texture on your card. Layer the green mesh fabric and any additional dress-up elements onto the card base to complete your layered floral design.

TIPS UIT DE SHOW

- Use off-white embossing powder rather than stark white, as it sits better with paint and prevents muddiness.
- Keep your embossing heat tool closed to manage static when working with vellum.
- You can mix and match watercolour paints with diluted blending inks to create additional colour options.
