

4x4x4 Cube Gift Box with No Glue

EEN PROJECT UIT ONZE LIVESHOW - MY PODCAST - 22 APRIL 2024

OVER DIT PROJECT

Create a clever 4x4x4 inch cube gift box from a single sheet of 12x12 inch paper that requires no glue to assemble. Using an envelope-making board with measurement guides, you'll score and fold the paper to create interlocking flaps that hook together securely. This ingenious design produces a sturdy white cube box perfect for presenting small gifts like socks, jewellery or bath products.

TIPS UIT DE SHOW

- Once you have made the box once, you won't need to refer to the instructions again.
- Save your instruction sheet by laminating it so you can refer to it later if needed.
- You can stack boxes of different sizes inside each other for a nested effect.
