

Sfeervolle kaart met geëtst balkon

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 9 APRIL 2024

OVER DIT PROJECT

Make an elegant card with a detailed balcony stamp that captures the look of a vintage etching or old photograph. Using kraft cardstock, water spray techniques, and subtle colour accents, you'll create depth and texture, then finish with black ink edging and white gel pen highlights for an aged, sophisticated effect. The result is a timeless architectural scene perfect for thoughtful greetings.

STAP 2 VAN 10

If the stamped detail appears too light, try using a different brand of embossing ink to achieve darker, more visible results on the kraft card.

STAP 3 VAN 10

Lightly spray the stamped image with water using a spray bottle. This will create a watercolour effect and soften the lines of the stamped design.

Using a green ink pad, add touches of colour to the foliage and leaves areas of the stamped image. Dab the ink pad gently onto the raised areas to highlight the greenery.

TIPS UIT DE SHOW

- The closer you look at this stamp, the more pixelated it appears, but from a distance it looks like a photograph.
- Have confidence adding colour—it will dry back much lighter than it appears when wet.
- You can build colour gradually if you're shy with it, adding layers until you're happy.
