EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 3 APRIL 2024

OVER DIT PROJECT

Create a stunning lavender field card with beautiful depth and dimension using layered stencilling techniques. Working with purple and green ink pads, you'll build up a naturalistic scene featuring tall lavender stems against a soft floral background. The muted colour palette and careful layering creates an elegant, artistic finish perfect for special occasion cards.

STAP VOOR STAP

STAP 1 VAN 9

Take a 7 by 7 inch card blank and place a piece of white card stock on top of it. Position the card stock centrally on the card blank.

STAP 2 VAN 9

Position your exterior lavender mask stencil on the white card. Place it centrally, ensuring the lavender design is where you want it on your card front.

STAP 3 VAN 9

Apply purple ink through the stencil using a sponge dauber, working from the top of the card. Build up the colour gradually over the lavender design.

STAP 4 VAN 9

Gently bend some of the stencilled lavender stems slightly to create the appearance of them blowing in the breeze. Use your fingers to carefully curve the stems for a natural, flowing effect.

STAP 5 VAN 9

Apply more purple ink through the top portion of the stencil using a blending tool, building up the colour and depth. Work the ink in circular motions to create a gradient effect with the darker purple concentrated at the top.

[BEKIJK DEZE STAP - 4:00](#)

STAP 6 VAN 9

Move the stencil slightly to a different position and apply another layer of purple ink from a different angle using the blending tool. This creates overlapping lavender stems for a more natural, layered effect.

[BEKIJK DEZE STAP - 4:30](#)

STAP 7 VAN 9

Apply darker purple ink to the front lavender stems using a blending tool. Use lighter purple on the back stems to create depth and perspective.

[BEKIJK DEZE STAP - 4:30](#)

STAP 8 VAN 9

Apply green ink through the stencil at the bottom of the card to create foliage. Use a blending tool to work the ink through the leaf portions of the stencil, building up the colour to complement the lavender flowers above.

[BEKIJK DEZE STAP - 4:45](#)

STAP 9 VAN 9

Optionally spray the background with water to mute and blend the purple lavender colours together for a softer effect.

TIPS UIT DE SHOW

- You can use stencils with mixed media techniques just like you would with traditional stencils.
- Layering the same stencil at different angles and with varying ink intensity creates natural-looking depth.
- Don't worry about keeping the design neat and contained—stencils are forgiving and versatile.
