Layered Card with Stencil Background and Ephemera

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 3 APRIL 2024

HET EINDRESULTAAT

OVER DIT PROJECT

Create an elegant layered card featuring a soft lavender and floral background with dimensional ephemera elements. This project combines stencilling techniques with fussy-cut vintage-style images including butterflies, birds, and botanical motifs, finished with a stamped sentiment. The result is a sophisticated card with beautiful depth and a romantic, cottage-garden aesthetic in purple, pink, and cream tones.

TIPS UIT DE SHOW

- You can create tabs and formations underneath your artwork by layering ephemera pieces.
- Don't hide your main focal point—arrange elements so the lavender background remains visible.
- Everything you create for a mini album or box can be adapted and applied to a card instead.
