Watercolour Ink Blending and Reverse Print Technique

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 3 APRIL 2024

HET EINDRESULTAAT

OVER DIT PROJECT

Create a beautiful watercolour card featuring delicate lavender flowers and soft purple tones. Using the reverse print technique, you'll apply ink to a stencil, spray with water, and press onto card to achieve an organic, muted background with gentle colour blending. This elegant design showcases two framed scenes with a vintage car and countryside landscape.

TIPS UIT DE SHOW

- Water-reactive inks blend beautifully and create a muted, ethereal effect.
- The reverse print technique allows you to create two coordinating backgrounds from one stencil application.
- Don't waste the ink on the stencil—use it to create a second print.
