STAP VOOR STAP

1

STAP 1 VAN 6

Lay out your five numbered stencils in order on your craft mat. Check that you can see the numbers facing you (not reversed on the back).

2

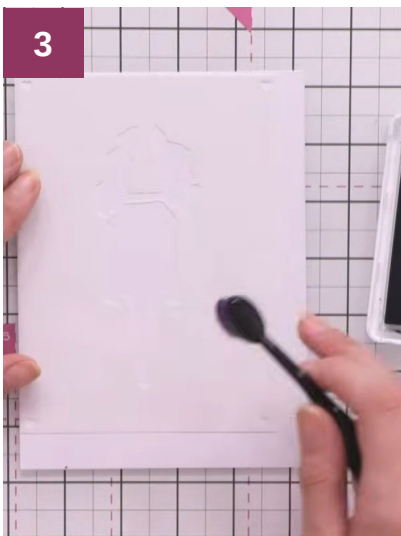

STAP 2 VAN 6

Position stencil number one in the top corner of your card blank, aligning it with the edge of the card.

3

STAP 3 VAN 6

Apply a light shade of teal ink through the first stencil using an ink brush, pressing gently onto the card. Hold the stencil steady with your other hand whilst applying the ink.

STAP 4 VAN 6

Remove the first stencil and position the second stencil directly beside where the first one was. Apply the same blue ink pad over the second stencil, pressing slightly harder for more colour intensity.

STAP 5 VAN 6

Continue layering with stencils three, four and five. Press progressively harder with each layer. For stencil four, change to a red or orange shade to add the interior jacket detail.

STAP 6 VAN 6

Stamp the Stella figure in black ink on top of the completed stencil layers. Position her so her chin sits in the neck of the roll neck jumper and her arms align with the layered shapes.

TIPS UIT DE SHOW

- Always check stencil numbers are facing you, not reversed, or the stamp won't fit properly.
- When making one card, make five instead—do all stencil number ones, then all number twos, etc., to avoid repeatedly cleaning stencils.
- The layering system hides any imperfections in your stencilling, so don't worry about achieving perfect coverage on each layer.
