

Two-Tone Layered Card with Split Panel Design

EEN PROJECT UIT ONZE LIVESHOW - CREATE TOGETHER CLUB CHAPTER 3 - 13 MAART 2024

OVER DIT PROJECT

Create a sophisticated two-tone layered card featuring a split panel design with beautiful floral patterned paper. The design showcases pink and purple blooms separated by a bold black strip running vertically through the centre, mounted on a vibrant pink card base. This technique adds visual interest and movement to your cardmaking with a modern, eye-catching finish.

STAP VOOR STAP

STAP 1 VAN 7

Select a patterned paper featuring purple hydrangeas and pink flowers. Place it on your scoring board and use a ruler to measure and trim it to the required size for your card panel.

STAP 2 VAN 7

Measure and mark the centre point of your patterned paper panel. This will allow you to create the split panel effect by dividing the panel into two equal halves.

[BEKIJK DEZE STAP - 19:30](#)

STAP 3 VAN 7

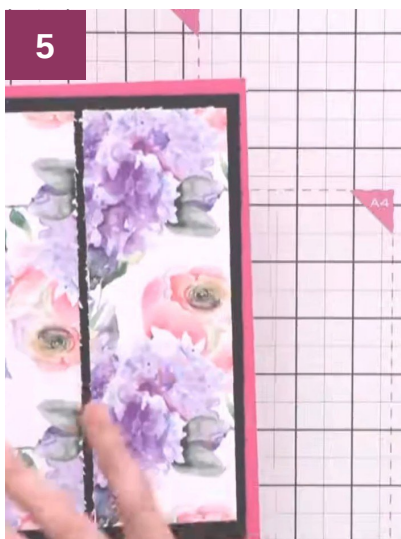

Cut your patterned paper down the centre line to create two separate pieces.

[BEKIJK DEZE STAP - 20:00](#)

STAP 4 VAN 7

Cut a strip of black card stock to act as a connector piece between your two floral paper halves. Position it vertically down the centre where the two panels meet.

STAP 5 VAN 7

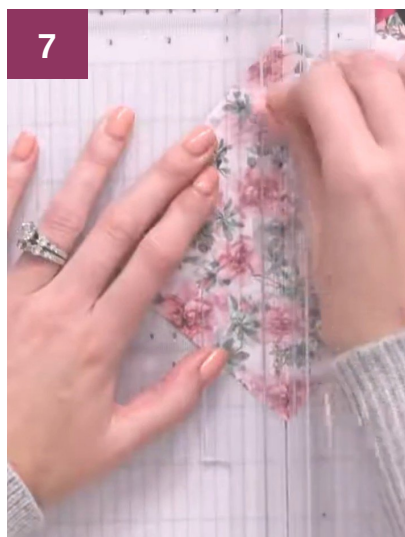

Adhere the first patterned paper panel to the pink card base, positioning it on the left side with the black border showing. Use wet glue or double-sided tape to secure it in place.

[BEKIJK DEZE STAP - 21:00](#)

STAP 6 VAN 7

Glue the black connector strip down the centre of the card, positioning it between the two floral panels to create the split panel design.

STAP 7 VAN 7

Position the second floral patterned paper piece on the right side of the white dotted panel and smooth it down to complete the split panel design.

TIPS UIT DE SHOW

- Leave a small gap between your paper pieces to allow the black mat layer to show through for a polished look.
