OVER DIT PROJECT

Create a stunning layered card featuring silhouette figures and trees set against a beautiful dusk sky. Using the Reflection Collection stamps and coordinating patterned papers, you'll build a atmospheric scene with depth and dimension. The design is enhanced with gold embossing powder to add elegant detail and create a grounded, realistic landscape effect.

STAP VOOR STAP

1

STAP 1 VAN 10

Select a patterned paper from the Reflection Collection to use as your base layer. The example shows a sunset landscape scene with trees and a path.

2

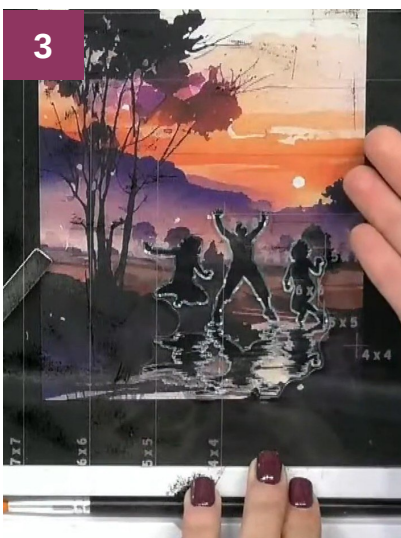

STAP 2 VAN 10

Position the silhouette people stamp on the sunset background, testing different placements to find the best position. Place the stamp where the silhouettes will sit naturally against the coloured sky.

3

STAP 3 VAN 10

Ink up the stamp with black ink, pressing firmly to ensure the top portion is solid and the base shows the faded reflection effect. Make sure to cover the entire stamp surface evenly.

4

STAP 4 VAN 10

Stamp the tree image onto your card twice in the same position to achieve a deep, true black colour. Ensure the stamp is aligned precisely for both impressions to create a solid silhouette.

5

STAP 5 VAN 10

Position the tree stamp on the left side of the card, aligning it with the grounded perspective of the people silhouettes. Ensure the tree's reflection complements the people's reflection in the water below.

6

STAP 6 VAN 10

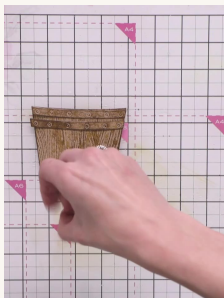

Stamp the tree silhouette image onto your card using black ink. Position the stamp carefully to leave the desired amount of the sunset background visible around the tree design.

7

STAP 7 VAN 10

Apply sticky ink pad to the silhouette stamp and ink it up thoroughly, ensuring even coverage across the entire stamp surface.

STAP 8 VAN 10

Stamp the image onto watercolour card, pressing down firmly to capture all detail. Ensure the stamp makes full contact with the card to transfer the complete design.

[BEKIJK DEZE STAP - 13:15](#)

9

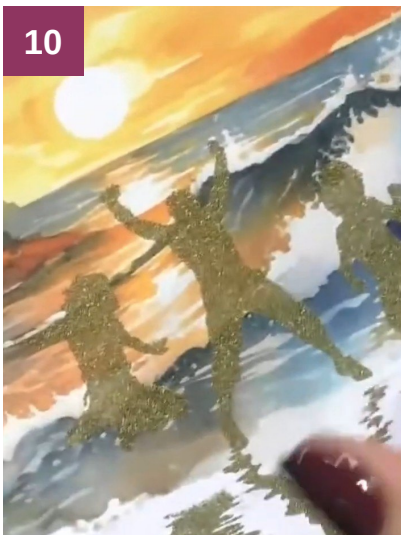

STAP 9 VAN 10

Add gold embossing powder to the stamped image. Sprinkle the powder generously over the wet ink to ensure full coverage of the design.

[BEKIJK DEZE STAP - 16:15](#)

10

STAP 10 VAN 10

Heat set the embossing powder using a heat gun. Hold the heat gun at a distance from the card and allow it to warm up before applying heat to the embossed areas to prevent the paper from warping.

[BEKIJK DEZE STAP - 16:30](#)

TIPS UIT DE SHOW

- You can mask off part of the stamp if you only want to use half of it.
- Less time with the heat gun means fewer lumps and bumps in your card.
- Ensure your heat gun is hot enough before applying to the card to prevent the paper from contracting and waving.
