STAP VOOR STAP

STAP 1 VAN 10

Select a piece of white watercolour card as your base. This will give your finished card an authentic painted appearance with a textured surface suitable for watercolour techniques.

3

STAP 3 VAN 10

Using a spray bottle, lightly mist the stamped image with water. Whilst the image is still wet, add a touch of blue ink to the base of the flower to create a burgundy tone.

STAP 4 VAN 10

Spray the inked stamp three times with water from a spray bottle to create a watercolour effect.

5

STAP 5 VAN 10

Press the stamp firmly onto the white watercolour card, allowing the coral and orange colours to blend naturally to create the poppy image.

6

STAP 6 VAN 10

Lift the stamp away from the card and set it aside. Allow the watercolour image to dry completely, observing the beautiful watercolour effect created by the embossing and ink.

STAP 7 VAN 10

Apply sticky ink to the solid portion of the stamp using the anti-static bag. Ink up the stamp thoroughly, ensuring even coverage across the entire surface.

STAP 8 VAN 10

Stamp the floral image onto white watercolour card using black ink, pressing down firmly to ensure all the detail is captured in the textured surface.

STAP 9 VAN 10

Sprinkle gold embossing powder over the stamped floral image, ensuring all the wet ink is covered. Tap off the excess powder back into the pot.

10

STAP 10 VAN 10

Heat set the embossing powder using a heat gun, moving it over the stamped image until the powder melts and creates a shiny, raised finish. The gold embossing will become glossy and dimensional as it heats.

TIPS UIT DE SHOW

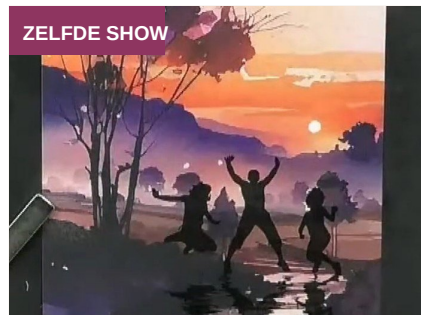

- If the ink is still slightly damp when embossing, the powder may appear blocky, but this still creates a beautiful effect.
- You can use white card instead of watercolour card if needed; just spray it with more water.
- Pat the stamp with your finger to blend colours together for a more organic watercolour look.
