OVER DIT PROJECT

Make a stunning shaped card featuring vibrant dahlia flowers created with layering stencils in soft watercolour shades of pink, purple and blue. Perfect for special occasions, this card showcases beautiful depth through careful stencil layering and can be personalised with your chosen sentiment.

STAP 3 VAN 8

Continue layering with stencils two, three, four, and five in sequence. Position each stencil over your card base and apply ink or colour through the design. Build up the layers to create depth and dimension in your hummingbird design.

STAP 4 VAN 8

Use the coordinating die from the Set Me Free stencil and die set to cut out the hummingbird shape. This will create the outline for your shaped card.

5

STAP 5 VAN 8

For an alternative look, stamp the hummingbird and flowers design onto patterned paper instead of white card. This creates a different effect whilst using the same stamp set.

6

STAP 6 VAN 8

Position the hummingbird stencil partially off the edge of your card base to create an interesting partial design effect. This allows the design to extend beyond the card edge for a more dynamic look.

7

STAP 7 VAN 8

Add sparkle to your final layer by applying glitter or embossing powder to the hummingbird and floral elements. This will give your card an extra dimension and catch the light beautifully.

8

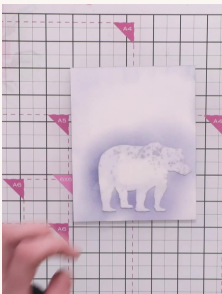

STAP 8 VAN 8

Mount your finished floral design onto the pink hexagonal card base. Position the decorated panel centrally and secure in place to create a standing card that displays your hummingbird and flowers.

TIPS UIT DE SHOW

- The design works beautifully in grayscale, gold, or any colour combination you choose.
- You can use the stencil without the outline die for a softer effect.
- The hummingbird design is versatile enough for sympathy, encouragement, or celebratory cards.
