

Garden Frame Foliage Die-Cut Card with Layered Sentiment

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 22 JANUARI 2024

OVER DIT PROJECT

Create a stunning layered card featuring delicate foliage die-cuts framing a watercolour floral scene in soft purples and pinks. This elegant design uses the Garden Frame die to build dimensional layers around a central window, creating a beautiful three-dimensional effect. The white die-cut foliage provides a crisp contrast against the gentle watercolour background.

STAP 6 VAN 8

Apply glue to the back of the foliage die-cut pieces and layer them onto the card front, offsetting and building up the layers for dimension. Position the pieces to create an attractive arrangement around the aperture.

STAP 7 VAN 8

Add your stamped sentiment to the centre window of the card. Position it slightly offset or centred as desired, and secure in place.

STAP 8 VAN 8

Add dimension to your card by attaching some foliage elements with foam pads to create 3D layering. Leave some elements unglued for added depth and movement.

TIPS UIT DE SHOW

- If the die hasn't cut all the way through, adjust the pressure dial slightly and run it through again.
- You can leave the centre piece in place if you prefer a solid look, or remove it to create a window frame.
- The die is symmetrical inside, which means there are many more design possibilities when you twist and layer the pieces.
