

Stencilled Paste Embellished Card with Iridescent Sparkle

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 22 JANUARI 2024

OVER DIT PROJECT

Create a stunning textured card featuring a sophisticated herringbone pattern embellished with shimmering iridescent paste. This project combines stencilling techniques with dimensional paste to achieve a modern, geometric design with beautiful sparkle and depth. The result is an elegant card perfect for special occasions, with a distressed yet refined aesthetic in soft pink and purple tones.

STAP 3 VAN 7

Place the herringbone stencil over your black card. Using a palette knife or spatula, dab the Funky Fossil Stellar Paste in Starlight through the stencil openings, working across the entire design to create a textured pattern.

STAP 4 VAN 7

Allow the paste to dry completely. The paste will appear slightly distressed and textured once dry, with an iridescent shimmer.

Once the paste is completely dry, gently scratch off any excess dried paste from the card surface using your finger to create a cleaner, more defined finish.

TIPS UIT DE SHOW

- The Starlight paste contains multiple colour tones (yellows, reds, pinks, blues, purples) so it looks different on black versus white card.
- The paste dries quickly and has a moisturised cap to prevent it from hardening.
- Experiment with the paste on different coloured card bases to see how the iridescent effect changes.
