

Drop Shadow Fern Stencil Card with Black Ink

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 9 JANUARI 2024

OVER DIT PROJECT

Create a striking card featuring a beautiful fern design with a dramatic drop shadow effect. Using a stencil technique, you'll layer teal and black ink to create a dimensional shadow that makes the fern appear to lift off the page. This elegant card combines simple stencilling with clever positioning to achieve a professional, eye-catching result.

STAP VOOR STAP

STAP 1 VAN 8

Place the fern stencil onto your white card stock. Secure it in position using a glass mat or grip mat to prevent it from moving whilst you work.

STAP 4 VAN 8

Reposition the stencil slightly down and to the right to create the drop shadow effect. The stencil should be offset from its original position in the direction you want the shadow to appear.

STAP 5 VAN 8

Position the fern stencil over the stamped image, slightly offset to create a shadow effect. Apply black ink through the stencil using a blending tool or sponge, building up the colour gradually.

TIPS UIT DE SHOW

- Only shift the stencil slightly in one direction (down, left, right or up) to create a drop shadow, not all over.
- The fern stencil is repositionable, so you can adjust if you are not happy with the placement.
- Stencilling onto patterned paper gives you layers and texture without the need for blending.
