

Inked Embossing Folder Dalon-Style Card

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 8 JANUARI 2024

OVER DIT PROJECT

Create a striking card featuring beautiful floral imagery with a dalon-style effect. This technique involves inking an embossing folder directly and transferring the embossed pattern onto card stock, producing rich colours with delicate embossed detail showing through. The finished card showcases roses and foliage in soft greens and pinks with an elegant vintage aesthetic.

STAP 7 VAN 9

Use blending brushes to add colour to individual flower heads on the embossed design. Apply small amounts of orange and yellow ink to create tulip flower heads, blending the colours gently onto the raised areas.

[BEKIJK DEZE STAP - 53:30](#)

STAP 8 VAN 9

Using a blending brush, apply green ink to the leaves on the embossed design. Work the colour gently over the raised areas to build up the shade.

[BEKIJK DEZE STAP - 54:00](#)

STAP 9 VAN 9

If any area becomes too bright, soften it by applying white pigment ink with a clean brush to tone down the colour and create a more subtle effect.

TIPS UIT DE SHOW

- You can keep running the card through the embossing folder with different colours if you're not happy with the first result.
- Stencilling can be layered on top of the embossed inked design for added detail and interest.
- Use white pigment ink to push back colours that are too bright or to create highlights on the design.
