

Kaart met zwevend vellum hart

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 29 DECEMBER 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Create an elegant card featuring a beautiful heart cover plate design with a delicate vellum centre that creates a stunning floating, transparent effect. The design combines vibrant pink cardstock with soft layered hearts and a sparkly butterfly embellishment. This project uses die-cutting and layering techniques to achieve a sophisticated dimensional look perfect for romantic occasions.

2

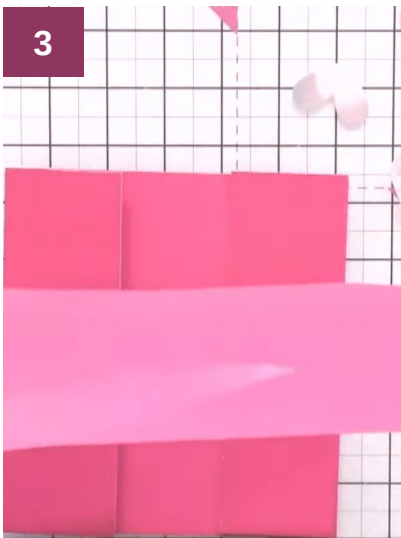

STAP 2 VAN 9

Cut out the centre section of the card using a guillotine or craft knife to create a window. The envelopes are coloured on the inside, so carefully remove the central panel.

3

STAP 3 VAN 9

Run vellum through the Lots of Love heart die to cut out the heart backing plate. The vellum should be pink in colour.

4

STAP 4 VAN 9

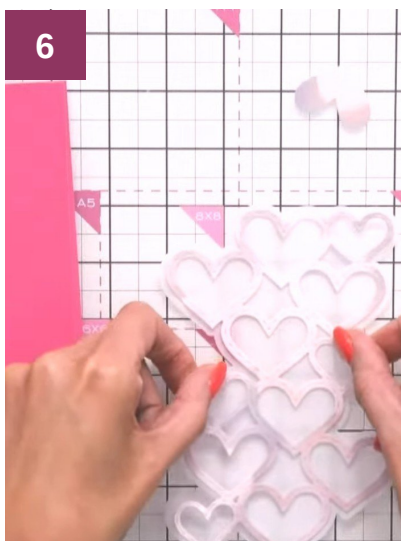

Position the vellum heart die-cut behind the aperture window in your card blank. The vellum heart should sit centrally within the opening, creating a floating effect when viewed from the front of the card.

STAP 5 VAN 9

Secure the vellum layer with tape on both sides of the card to hold it in place. Apply tape to the left and right edges where the vellum meets the card base.

STAP 6 VAN 9

Cut a butterfly from your previously die-cut elements. Alternatively, stamp and cut a new butterfly if needed.

TIPS UIT DE SHOW

- The vellum centre creates a soft, transparent floating effect that looks elegant and sophisticated.
- You can paper piece some of the hearts back in if you want to add more colour to the design.
- Folding the hearts in half allows you to create raised butterfly elements for extra dimension.
