

Bubble and Fizz Illusion Card with Stamped Design

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 29 DECEMBER 2023

OVER DIT PROJECT

Create a stunning optical illusion card featuring a stamped camera design framed by die-cut bubbles. Using the Bubble and Fizz die and coordinating stamps, you'll craft a card with pink borders and delicate bubble details that make the camera image appear to float within the design. This project combines die-cutting and stamping techniques to achieve an eye-catching dimensional effect.

STAP VOOR STAP

STAP 1 VAN 8

Stamp a camera design in black ink onto two pieces of white card that are exactly the same size. Position the stamp in the corner of each card piece.

5

STAP 5 VAN 8

Take the die-cut piece with the camera design and carefully position it over the bubble shapes on your card front, aligning it so the camera image shows through the circular openings.

6

STAP 6 VAN 8

Glue the camera die-cut piece on top of the white embellishment in the centre of the card, aligning it with the stamped camera design beneath.

STAP 7 VAN 8

Add washi tape down the side of the card for additional interest. Position the pink washi tape along one edge of the white card panel to create a decorative border.

STAP 8 VAN 8

Tilt the card to the side to reveal the illusion effect where the bubbles appear to frame the camera design. The acetate layer creates a dimensional bubble effect around the stamped camera and sentiment.

TIPS UIT DE SHOW

- Colouring the stamped design before die-cutting will enhance the illusion effect.
- This technique works with any stamped image you have in your stash, not just the camera design.
- The bubbles create an instant focal point without needing additional embellishments.
