

Gold Foil Embossed Collage Card with Teal Base

EEN PROJECT UIT ONZE LIVESHOW - CREATE TOGETHER CLUB CHAPTER 3 - 14 DECEMBER 2023

OVER DIT PROJECT

Create a stunning mixed-media card featuring two contrasting designs side by side. The left card showcases soft pink watercolour florals with an inspirational sentiment, whilst the right card displays a dramatic copper-foiled sunflower embossed onto vintage book text, all mounted on a teal card base. This project combines embossing, foiling and collage techniques for a sophisticated handmade greeting card.

2

STAP 2 VAN 7

Run the foiled paper through your die-cutting machine using thick plates to emboss the design. Ensure the foil side is facing up as it goes through to create a raised embossed pattern.

3

STAP 3 VAN 7

Trim away the excess paper around the embossed design using scissors. Cut carefully to remove the unwanted areas whilst preserving the embossed pattern.

7

STAP 7 VAN 7

Adhere the collage paper layer with the copper foil to the side of the teal card base. Pinch the edges slightly to create dimension rather than laying it completely flat.

TIPS UIT DE SHOW

- Gold wax or metallic inks create a striking contrast on patterned papers and show up beautifully on the embossed design.
- Layering different coloured cardstocks and patterned papers creates a mixed-media effect that makes the embossed design stand out.
