Geëmbosste jurkkaart met bloemdetails

EEN PROJECT UIT ONZE LIVESHOW - PRODUCT PREVIEW - 1 DECEMBER 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Create elegant embossed gown cards featuring beautiful floral details in your choice of colours. Using lamination sheets with dress designs, you'll run them through an embossing folder to add dimensional texture, then enhance the embossed flowers with coordinating inks. The result is a stunning layered effect with pink, green, blue and purple variations that showcase both the flowing gowns and delicate botanical elements.

4

STAP 4 VAN 8

Ink up the embossed flowers on your stamped image using a coordinating ink pad colour. The embossing folder will have created raised areas that can be highlighted with ink.

5

STAP 5 VAN 8

Tap off excess ink from the embossing folder before applying it to the card to avoid over-inking the design.

6

STAP 6 VAN 8

Apply ink to the raised embossed areas of the stamped image to highlight the floral details. This brings the design elements to the foreground and adds depth to your card.

7

STAP 7 VAN 8

If desired, add additional colours to the embossed flowers using the embossing folder to ink the design. For example, add green to leaves alongside pink flowers to create a more detailed floral effect.

BEKIJK DEZE STAP - 49:30

STAP 8 VAN 8

Use the blending tool to add pink ink around the edges of the stamped image, blending outwards to create a soft halo effect that highlights the figure and complements the overall design.

BEKIJK DEZE STAP - 50:30

TIPS UIT DE SHOW

- Place something underneath the card when embossing to avoid creating a line across the design.
- You can add multiple colours to the embossed flowers to create more visual interest.
- The embossing folder can be used independently of the lamination – you don't have to use them together.
