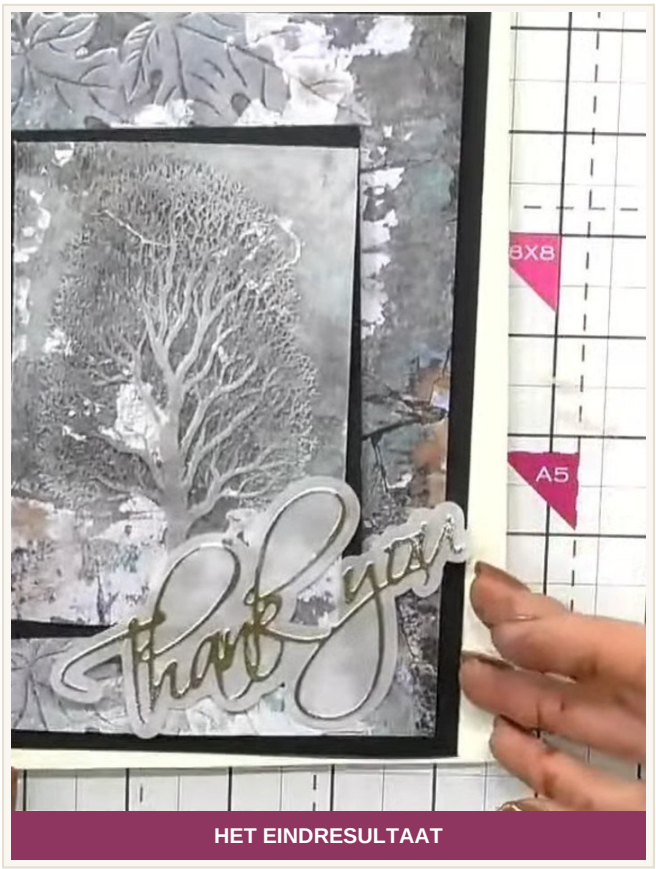
Embossed Tree Card with White Ink Highlight

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 28 NOVEMBER 2023



HET EINDRESULTAAT

OVER DIT PROJECT

Create an elegant card featuring a beautifully embossed tree design on textured grey and white decorative paper. The raised tree detail is highlighted with white ink to reveal intricate branches and texture, creating stunning dimension. This sophisticated design uses 3D embossing and selective inking techniques to achieve a professional finish with a 'Thank You' sentiment.

TIPS UIT DE SHOW

• You can change the formation of the embossing by moving the folder around on the card stock to create different placements.
• A light-coloured ink pad works best for highlighting; white is traditional but pale pink or other light colours can work too.
• The 3D embossing folders work beautifully with patterned papers you already have in your stash.
