# Kaart met herfstbladeren in reliëf op een mat

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 28 NOVEMBER 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Make a stunning autumn card featuring embossed leaves with an artistic watercolour background effect. The design uses brown ink to create depth on the embossed leaf patterns, then white ink highlights bring out the raised details for a frosted, snow-dusted appearance. This elegant card combines simple embossing and inking techniques to create a sophisticated seasonal design.

## TIPS UIT DE SHOW

- Use a lighter brown ink if you want to preserve more of the background detail visible through the embossing.
- You can reposition and re-run embossing folders through your machine multiple times if you're not happy with the first result.
- White ink is essential for bringing embossed details back to life after using dark inks.
