

Clean and simple kaart met aquarelspetters

EEN PROJECT UIT ONZE LIVESHOW - CRAFT BATTLE - 27 OKTOBER 2023

OVER DIT PROJECT

Create an elegant clean and simple card featuring a stunning watercolour splatter effect in vibrant rainbow hues. This minimalist design uses water-reactive inks to create soft colour blending with pink, orange, yellow, green, blue and purple tones against a white background. The splatter technique produces an artistic, contemporary look perfect for any occasion.

STAP 2 VAN 6

Apply yellow water-reactive ink to your white card using a dauber or applicator. Work the ink onto the surface in a light, dabbing motion to create a soft watercolour effect.

STAP 3 VAN 6

Spray water onto the inked areas to activate the colour and create blending effects. Use a water sprayer to lightly mist the stamped images, allowing the ink to spread and blend naturally.

STAP 4 VAN 6

Add splatter details to your watercolour background using water-reactive ink. Apply the ink with a brush or tool to create texture and visual interest across the design.

TIPS UIT DE SHOW

- Ensure you use water-reactive inks for this technique, as standard inks will not blend with water.
- Clean and simple designs work best when you resist over-embellishing.
