

Embossingkaart met acrylspray en inktdetails

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 26 OKTOBER 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Create a sophisticated steampunk-inspired card featuring embossed metalwork patterns enhanced with acrylic spray paint in gold and blue tones. The design is brought to life with black ink detailing applied using a brayer, creating depth and dimension across the geometric peacock feather motifs. This striking technique combines texture and colour for a truly eye-catching handmade card.

STAP VOOR STAP

1

STAP 1 VAN 7

Run black cardstock through your die-cutting machine with a decorative embossing folder to create a raised pattern on the surface.

2

STAP 2 VAN 7

Gently swirl your acrylic spray cans to wake up the product, being careful not to shake them vigorously or block the nozzles.

3

STAP 3 VAN 7

Spray the embossed card with gold acrylic spray, ensuring the raised pattern areas are well covered with the metallic colour. Allow the spray to dry completely before proceeding.

4

STAP 4 VAN 7

Spray the embossed card with blue acrylic spray, layering it over the metallic colours to create a mixed effect with blue, grey and bronze tones.

[BEKIJK DEZE STAP - 27:30](#)

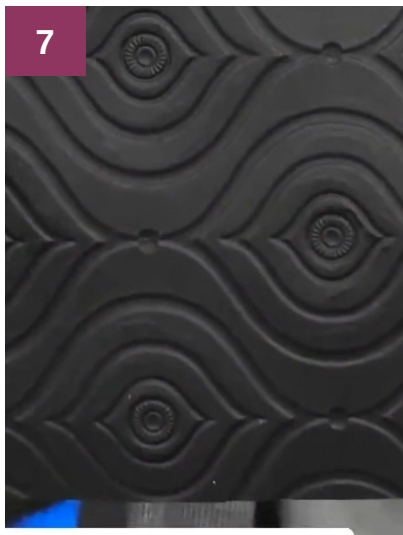

STAP 5 VAN 7

Heat-set the sprayed card using a heat tool to dry the acrylic finish. Move the heat tool over the surface to set the blue and metallic spray colours.

[BEKIJK DEZE STAP - 28:00](#)

STAP 6 VAN 7

Use a brayer with black ink to roll over the embossed and sprayed design. This will add definition and pull out the raised detail of the pattern.

STAP 7 VAN 7

View the finished embossed card with its metallic spray finish and ink detailing. The combination of the decorative pattern and colour creates a steampunk or palace-inspired aesthetic.

TIPS UIT DE SHOW

- Swirl spray cans rather than shake them to avoid blocking the nozzles.
- If you have acrylic nails, be aware that acrylic spray will not come off easily.
- You can add multiple techniques such as glitter or additional ink layers to further enhance the design.
