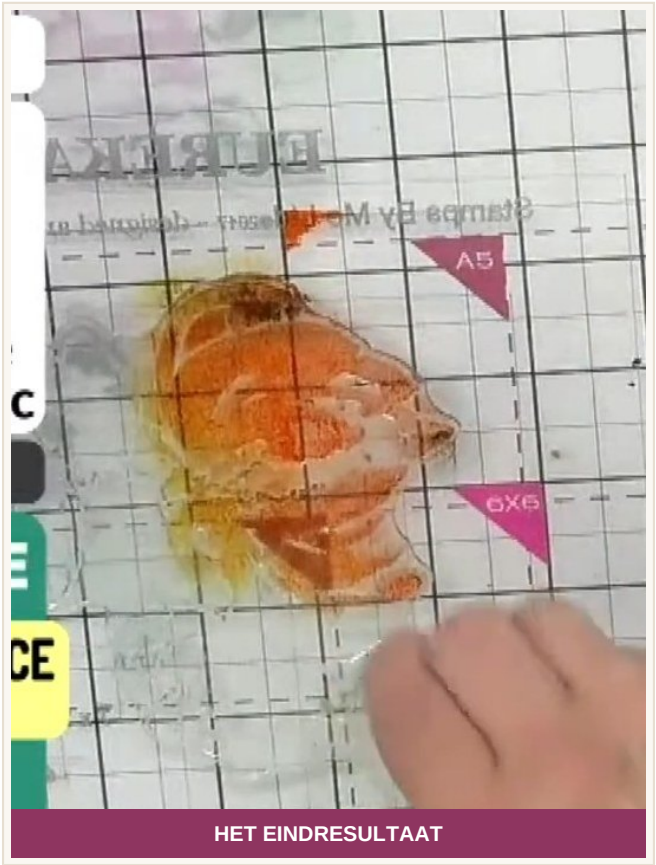
Layered Lamination Flower Card with Mixed Watercolours

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 26 OKTOBER 2023



HET EINDRESULTAAT

OVER DIT PROJECT

Create a beautiful layered floral card featuring vibrant watercoloured flowers in orange, yellow and green tones. Using lamination stamps, you'll build up depth and dimension by selectively applying different ink colours to create a stunning multi-layered botanical design. This technique combines stamping with watercolour effects to produce a professional-looking handmade card.
