HET EINDRESULTAAT

OVER DIT PROJECT

Create a vintage-style Father Christmas card by embossing a detailed Santa design onto kraft card. Enhance the embossed image with brown ink to achieve an aged leather effect, then add hand-painted red and green details to bring warmth and character to this nostalgic festive piece.

TIPS UIT DE SHOW

- Craft card appears darker when wet, so don't worry if the colour looks too dark initially; it will lighten as it dries.
- The brown ink underneath is water-based, so it will reactivate when you paint over it with water-based paints, giving you an even more vintage look.
- You can add glossy accents over painted areas for a liquid glass effect.
