

## Wit geëmboste kaart op gekleurd karton

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT TV - 23 OKTOBER 2023

HET EINDRESULTAAT

### OVER DIT PROJECT

Create a striking card by embossing a design with white ink onto coloured cardstock, then adding edge details with coordinating ink pads. This technique produces a sophisticated look with raised and debossed elements that catch the light beautifully. The finished piece features an elegant white embossed design on a rich blue background, creating a stunning contrast.

## TIPS UIT DE SHOW

- Ink both sides of the embossing folder to ensure you have the correct orientation and full coverage.
- Never force the embossing folder through your machine; if it does not go through easily by hand, check your machine's manual for correct plate and shim settings.
- You can run an already embossed piece through the machine again to intensify the white ink coverage.
